

THE GLEICHEN CALL

VOLUME XXX

NO. 1

GLEICHEN, ALBERTA, WEDNESDAY

MARCH 17, 1937

SUBSCRIPTION \$2.00 PER YEAR

NIW BASEBALL CLUB FORMED BY YOUNG PLAYERS

A meeting was held last Wednesday when the Crescent Baseball Club was formed. It is the intention of the club to field a team of young players for this season. They do not expect to field a particularly strong team but hope to give the boys plenty of training so that in a year or so they will be able to give a good account of themselves.

The following officials were elected:

President, J. O. Bogstie
Vice-President, J. Black
Secy-Treas., A. Clifford
The grounds committee consists of Messrs. R. C. Clifford, J. Lester, and W. McKay.

The following will compose the team: Gordon Bogstie, Gerry Yates, Eugene Lester, Art Clifford, Don Lester, T. Mauxa, O. Gilbert, Rinky Clifford, J. Cook, Tom Downey, Dennis Woods, B. Gilbert.

MRS. CHAS. ROBBURNE

Mrs. Chas. Robburne well known to Gleichen old timers died at Bassano. Burial took place there. The following is from the Bassano Recorder: The funeral rites of Mary Ann Robburne, nee Palmer, were conducted in the Church of St. Basil, Bassano, Sunday, the services being read by Rev. J. H. Naylor.

Mrs. Robburne whose death occurred in the local hospital had been ill for some months. She was born in Devonshire, England, April 23rd, 1872, coming to Crowfoot district as a bride in the early spring of 1898, where she has since resided.

Mrs. Robburne was among the pioneers of Crowfoot district and has been a member of the various old time associations, and has always taken an active part in the upbuilding of the community. She was dearly loved by all who knew her, and it could most fittingly be said:

"That she lived in a house by the side of the road,

And was always a friend of man."

She is survived by her husband, Chas. Robburne, two sons, Sid and Thomas, of Crowfoot, two daughters, Mrs. Walter Bloom of Los Angeles, California, Mrs. Wm. Main of Calgary, one sister, Mrs. Frank Robburne of Crowfoot, two brothers, Mr. Fred Palmer of Crowfoot and Mr. Wm. Palmer of Gleichen.

Bell hearse were Messrs. Wm. Weeks, Ellis Campbell, Chas. Harris, Duncan McBean, Wm. Playfair and J. King.

FREE PICTURES TO SHOW TRACTORS IN THE MAKING

W. Sutermeister announces that he has arranged for a showing of the latest Massey-Harris moving pictures. These are talking pictures and the first "The Tractor Triumphant" takes up to the factory and shows each step in the building of Massey-Harris tractors. Then we see tractors in orchards and farms from Nova Scotia to Western Canada. A view of the Annual Apple Blossom Festival in the Annapolis Valley. In turn a visit to Niagara Falls, the corn fields of Ohio, the cotton fields of Texas and see five tractors at one time working on the farm of Sch Bros. Carbon, and many other interesting scenes. There is no charge for this entertainment and a hearty invitation is extended to all to spend the afternoon. The pictures will be shown in the L.O.O.F. Hall on Friday March 19th, at 2 p.m.

GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, Minister.
Mrs. H. Birch, choir leader.
Miss Jean Farquharson, pianist.
11 a.m. Church School.

7.30 p.m. Evening worship. Subject: "The story of the trial and crucifixion of Jesus, illustrated with a beautiful set of lantern slides."

There will also be a set of slides representing the hymn "Rock of Ages." The slides will be shown while the hymn is being sung. Parents are urged to come and bring their children as these pictures will help to fasten the events of Jesus' last week on earth in their minds more impressively than any ordinary lessons on the subject.

MRS. J. W. HUTCHESON HOSTESS REGULAR U.F.W.A. MEETING

The U. F. W. A. held their March 11th meeting at the home of Mrs. J. W. Hutcheson with seventeen members and visitors present.

Miss Goodwin gave a splendid paper on "Perfumery." Mrs. F. Sams read the monthly Bulletin. Edward Ferguson was a visitor from the Junior local.

The next meeting will be held at the home of Mrs. L. Koefoed on March 25th.

MAKES HIGH PERCENTAGE AT MUSICAL FESTIVAL

Miss Marjorie Birch attended the Musical Festival at Drumheller last week. The following is a list of the classes she entered:

Sight singing, in which a given song was required to be sung at sight.

For test, in which a melody was played by the adjudicator, and the competitors required to transcribe it in staff notation.

Sight playing, in which a given composition was required to be played on the piano at sight.

Pianoforte solo, in which two compositions were required to be played on a G Major—Beethoven and Night in May—Palmgren.

For these events she obtained an average of over eighty per cent, obtaining a first-class certificate in each class. Ronald Gibson of Winnipeg was the adjudicator.

The Festival was conducted in a very able and satisfactory manner. A very welcome and consideration was given out of town competitors, even as far as allowing time for practice periods between the sessions of the festival.

Miss Birch intends to further her musical experiences by attending the musical festival at Calgary in May.

THE WORLD OF WHEAT

Y. H. G. L. Strange, Director of "Crop Testing Plan."

Wanted—"A Perfect Wheat" At 11 events a wheat earlier than Red Life.

Dr. Seager Wheeler, in his excellent book "Profitable Grain Growing" tells us that in 1910 he applied himself to the search for just such a new variety.

In a field of Australian White Bob, Dr. Seager Wheeler found a head and red kernels. He multiplied this one of his selections from it is the famous Red Bob 222 (sometimes called Early Triumph) an important early wheat about 6 days earlier than Marquis with good milling and baking qualities, very strong in the straw, and yielding quite as high as Marquis.

Its defects are in a dry fall it shatters rather easily, and in a wet fall, and on certain types of soil, it sometimes shows starchy and pibek kernels.

Being susceptible to black stem rust, however, it is not recommended for the rust areas of Manitoba or Eastern Saskatchewan, but it is now being increasingly used in parts of Alberta and Western Saskatchewan.

Dr. Seager Wheeler, by his skill and thoroughness in producing Red Bob, has added many millions of dollars of extra wealth to the pockets of Western Canadian farmers.

Following factors have tended to raise price: Wheat purchases exceeding all expectations being made by Italy, Germany and Great Britain from many countries. World stocks of wheat steadily decreasing. United Kingdom buys more wheat and grapes from the United States. World inflation of money apparently beginning to increase prices of most commodities.

We'll say this for the Spaniards—they evidently aren't after the tourist trade.

LIST OF DONATIONS RECEIVED BY HOCKEY CLUB

Through the untiring efforts of Mr. J. O. Bogstie, the Gleichen Hockey Club has recently received a very substantial donation of money collected by Mr. Bogstie from the citizens of the town. The executive of the club wish to sincerely thank Mr. Bogstie and all those who so kindly contributed towards the success of this effort. The following is the list of contributors as received by the secretary:

J. O. Bogstie	2.00
A. W. Gilbert	1.00
C. W. Halstead	1.00
N. T. Purcell	1.00
Fred Jones	.25
M. B. Short	.25

V. Schmidt	1.00
Mahoney	.50
Isa Freeman	.50
A. R. Yates	1.00
L. Phillips	1.00
W. Evans	1.00
H. Goddard	5.00
M. LeDrew	.50
A. G. Lewis	1.00
H. Johnston	2.00
The following amounts were credited to this account of the one making the donation.	
V. McConnell	5.00
V. J. McKay	5.00
L. Little	2.00
L. Farquharson	2.00
A small amount appearing on the list has not yet been collected.	

A BIT OF EARLY HISTORY ON BOGSTIE'S IMPLEMENT WAREHOUSE

During the past week so much discussion has taken place as to when the Bogstie implement building was built we have looked up black numbers of The Call. Work was started at the end of May 1911. It was called Gleichen Young People's Institute and was located where the residence of P. Rishau now stands. In 1914 J. O. Bogstie bought the building and between Christmas and New Year's of that year moved it to the site it now occupies.

The first patron the hall had was Senator Magrath who delivered a political speech there on September 14, 1911.

A little history of the place may be cut of place here. The Call of June 1, 1911 says in part:

On Friday last an energetic "bee" of workers assembled on the site of the Gleichen Young People's Institute and in a manner worthy of the best efforts of a lusty big-boned navy they assailed the task of excavating a 30 feet by 20 feet cellar, and in a praiseworthy style almost completed the task, which was carried out by a fresh "bee" on Saturday.

It was truly an enervating sight to watch Rev. Rennie driving a team and scraper and the Rev. Mitten guiding the handles of that cumbersome implement, and Dr. McIntyre steering the destiny of the plow. Though not being educated at college to this art, yet, with the aid of those who had experience, they exemplified the fact "that where there is a will there is a way." So began, successfully, the first solid step towards the building. The generosity of Messrs. A. D. Shere, J. W. Burr and J. Ostrander who kindly lent teams to do the work is much to be admired and thankful for.

The "bee" of workers consisted of Revs. Rennie and Mitten, Dr. McIntyre, Messrs. J. Ostrander, P.

REGULAR SEMI-MONTHLY MEETING S. C. GROUP HELD

The regular semi-monthly meeting of the Meadowbrook Ladies Social Credit Group was held on Thursday at the home of Mrs. Fred Hamar, the hostess being Miss B. Richardson.

Mrs. R. B. Hayes occupied the chair, Miss Bell, the president, being absent. The roll call was answered by "Work I Like to do."

Mrs. R. B. Hayes will be hostess to the Group on March 18th at 2 p.m.

SUMMER SCHOOL IN FINE ART DESIGN

The Provincial Institute of Technology and Art will conduct a summer school in fine art design at Banff from August 2nd to August 27th in co-operation with the Extension Department of the University of Alberta and with the financial assistance of the Carnegie Foundation of New York. It is desirable to make this facility known and available to as many persons in the province as have aptitude in this subject and with this in view fees are merely nominal.

To encourage those who would profit, the committee in charge will offer to the person in each of the districts who makes the best drawing or painting within the district according to the rules, a scholarship to the value of \$10 as payment of fees for tuition at the summer school. It is hoped that many will avail themselves of this opportunity and participate in this contest. Scholarships will be available for Gleichen and many districts in Alberta.

The competition will be open to any person over sixteen years of age residing within the general area including and adjoining the place named, who will be classified as belonging to this district. A scholarship will be available for each district named. Any subject from landscape, still-life, or life, may be chosen as the subject for the picture submitted. Pencil, pen, charcoal, pastel, crayon, watercolor, or oil, may be used as a medium in making the picture.

This competition is not restricted to young people or to those attending school. The school was primarily instituted to be of major interest to persons over sixteen years of age with aptitude in art, especially landscape art. The scholarship will be valued at \$10. A fee of \$1 will be collected from all who attend as a general source to be a fund for social purposes among the group. Any person interested in art will be eligible to attend these classes on payment of the regular fee.

ACCIDENT LEADS TO MAJOR INDUSTRY

A cow kicking over a lamp, they say, started the Chicago fire. A spider climbing a thread brought Bruce of Scotland victory. But these and many other like historical incidents pale before the story of the housewife whose carelessness founded one of the most important phases of the Canadian fish industry.

Away back in a Scottish village a housewife left a haddock hanging from the rafters of her cottage as she went out for the day. She had left it too near the peat fire, however, and when she returned the fish was all dried by the smoke from the fire. She decided to cook it anyway and the result was so appetizing that the next spread like wildfire and smoked fish became a national delicacy.

Today the popularity of smoked fish has spread everywhere and the appetite for this delicacy has founded Canadian organizations of international repute, some of which have been established for a century or more.

The Canadian climate has been found ideal for the production of this delicacy and other cured fish and today the Dominion holds a foremost place in world trade in the export of dried, smoked, and pickled fish.

Ostrander, R. Burr, A. Cronkite, Patterson, D. Finlayson, several volunteers and at two others who cheered them on.

At the last meeting of the Institute made a payment of \$86 on he loan.

ALBERTA MOVES TO MAKE DRIVERS DIM CAR LIGHTS
Important changes in the Vehicles and Highway Traffic Act, which are of interest to all motorists and officers using the highways of this province, are provided for in the amending bill introduced in the legislature.
Probably the section of greatest interest is that which makes it compulsory for headlights on motor vehicles to be dimmed or dropped. This must be done at a distance of not less than 350 feet.
It is recalled that in recent months strong protests have been expressed at meetings over the menace of glare headlights and the danger of serious accidents.
Another section of the bill requires cycles to be equipped with a lighted headlamp and a lighted tail light or rear reflector, when being ridden on a highway at night.
The bill also contains another important section which provides that all motor vehicles shall be equipped with adequate brakes. Standards of adequacy are prescribed while police officers may inspect brakes of any vehicle operating on a highway and may order it to be brought to a brake adequacy forthwith.
Another section makes necessary the reporting to a peace officer of all accidents in which a motor vehicle is involved, if any injury to persons or property is caused by the accident.
Don't fool yourself, brother; girls who are easiest on the eyes are the hardest on the nerves.
Babsen says that in a couple of years it will be hard to find a debtor in this country. That's nothing. It's hard now when somebody tips him off.

A Radio Renaissance?

The radio audience in Western Canada which has suffered extensively for some considerable time, and in recent months in inarticulate silence outside the home, has at last some reason to hope that some of the disabilities under which it has been suffering are about to be removed, or at least ameliorated.

The grounds for these hopes are based on the recent public utterances of Major W. E. Gladstone Murray, the imported general manager of the comparatively new set up, the Canadian Broadcasting Corporation, successor to the erstwhile Canadian Radio Commission, on the occasion of his first trip to the west since his appointment, which coincided with the re-organization of the radio governing body of the Dominion.

A year ago radio columns in the daily press were filled with lamentations and the gnashing of teeth of radio fans whose complaints of interference, inadequacy of programs and other causes of dissatisfaction with the status quo swelled into a diaphanous discontent.

To the average Western Canadian owner of a receiving set it appeared that very little head was being paid to his complaints and little or nothing being done to remedy them and that the only reply to his expressions of annoyance was to double his contribution to the commission for the privilege of listening in to what he did not want to hear.

Since that time the chorus of disapproval seems to have diminished somewhat but this must not be construed in official quarters that discontent has disappeared. It would be more correct to diagnose it as a demonstration of tolerance of the Western radio public—a desire to give the new governing body an opportunity to study defects and disabilities in the hope that they will be able to remedy them and give the radio fans something more to their taste.

As intimated at the outset there is some reason to hope, in the light of Major Murray's statements that something is going to be done, and in the near future, to give Western Canadians a better break in the radio field than they have had hitherto.

It is true that Major Murray's public comments were entirely devoid of any information as to what steps will be taken precisely to remedy long-standing complaints but the general tenor of his published remarks indicated that he is fully aware of the causes of discontent on the prairies and an intimation that something is going to be done in an effort to more nearly meet the wishes of the licensees in this section of the Dominion was coupled with the interviews he gave the press.

The mere fact that recognition is given to the existence of complaints is half the battle and engenders a reasonable hope that solutions of some of the major problems are to be found within a reasonable time.

The following extract from one of his interviews shows that Major Murray has put his finger on some of the chief causes of annoyance to Western Canadian radio users:

"Major Murray expressed great interest in the difficulties of Western Canadian listeners to obtain their favorite United States programs through 'blanketing' of the southern stations by Canadian ones. He hoped a new allotment of wave lengths would follow, with special notice to Canada, from the world conference on wave lengths to be held in Cairo in 1935. That conference likely would be preceded by regional conferences.

"Despite the existing wave length agreement between Canada and the United States, no agreement existed with Mexico and considerable difficulty was noted from that quarter. The C.B.C. manager also expressed his awareness of the difficulty of local listeners obtaining their favorite Canadian programs because of local programs by stations in their area.

"Major Murray said the average radio listener wanted variety with a fair measure of better class music.

"He announced the intention of the C.B.C. to take part in a scheme of exchanging producers within the Empire and with the United States. He mentioned particularly proposed exchanges between the C.B.C., B.B.C. and N.B.C. It was wise, he felt, for Canadian program producers to widen their experience through visits to other countries and to let Canadians know what was being done elsewhere."

While the points mentioned by Major Murray do not by any means cover the entire ground, the very fact that he is quickly assimilating the causes of difficulties and objections in the west is to say the least encouraging and his attitude indicates that he is anxious and willing to meet the wishes of the western audience, insofar as it may be feasible.

Has Acres Of Nuts

Heavy Plane Purchases

Ontario Man Grows Over 300 Varieties On His Farm

Michigan can grow any type of nut that is produced anywhere in the United States, Europe or Asia, according to George Heblen Corson of Islington, Toronto suburb, who was in Detroit with 300 varieties to be shown the Boy Scouts. Corson, 77, has 20 acres of nuts on his Islington farm and more than 300 varieties. They range from English walnuts to paper shell pecans and from chestnuts to a hybrid of pecan and old-fashioned hickory nut.

"Nuts always bring good prices," Corson said. Years ago, Corson was swimming instructor at University of Toronto.

In the profane lexicon of the inconsiderate driver, there's no such verbage as "Pardon me."

World Will Spend Nearly A Billion Dollars For Aircraft This Year

The world will spend nearly \$1,000,000,000 for aircraft this year, a research expert of the aeronautics industry said—and four of every five of the 28,500 units to be produced will be fighting planes.

Howard S. Welch, vice-president and general manager of the Bendix Aviation Export Corporation, estimated all nations would spend a total of \$911,000,000 for new planes, equipment, and spare parts in 1937.

It is possible to travel by canal from Antwerp on the North Sea to Marseilles on the Mediterranean, through the heart of France.

Crippled Girl Is Clever

Blind For Years She Operates Typewriter And Plays Bridge

One of Ontario's most promising young persons lives in Tavistock. She is Lucille Kemp, "Babe" to her friends, blind, unable to walk, and having normal use of only one finger on each hand. Miss Kemp is 19. She can write on a typewriter, run a telephone switchboard, read and write Braille, compose poetry, play an autoharp and enjoy a game of bridge.

When she was two years old, a swelling was noticed in one of her toes. The toe was removed on medical advice, but this failed to halt the progress of a severe type of arthritis which spread through her body, crippling limbs and totally destroying eyesight.

Her typing is done on a special machine made about three years ago by her father, who does woodwork and fine machining for a hobby. The keys are covered with brass caps in which are raised up Braille characters to indicate the letters. Miss Kemp was thus able to learn by touch and has become quite proficient; her friends tell of receiving letters from her at Christmas.

"There isn't anything else you can do," the amazed reporter asked Miss Kemp after members of her family had gone over her various abilities.

"They forgot I can knit," she said. She produced her decks of cards to show how she plays bridge. Each card is stamped top and bottom with Braille characters to indicate its value. Even after the stamping has worn nearly smooth she finds no difficulty in telling what is in her hand.

Scientific Research

Need For Greater Efforts Stressed By President Of Council

Necessity for greater efforts by Canadians in the field of industrial and scientific research was stressed by Major-General A. G. L. McNaughton, of Ottawa, president of the national research council, in an address to the Nova Scotia Institute of Science on the occasion of its 75th anniversary.

"We can by no means afford to regard the situation in Canada with complacency," he said, "but on the contrary we should use every endeavor to interest those concerned, and particularly our manufacturers, so that we may conserve what we have in the way of trade in our own markets and in the markets of the world in the face of the ever-intensifying competition from men, improved and cheapened products of other lands.

"We must put trained investigators to work to find other uses for our products in danger of being displaced, and we must find new products which can be made from available raw materials in order that stability of employment and of capital investment may be maintained, and particularly that the appalling waste and misery which comes in the trail of any decadent industry may be avoided."

Robot Gives Warning

Officers Of Anti-Aircraft Brigade Testing Remarkable Machine

Officers of an anti-aircraft brigade at Manchester, England, are testing a remarkable machine which gives warnings of air invaders. The "predator," operated electrically, records the speed of approaching airplanes, their height, and the speed and direction of the wind. The information passes by electric cable to the anti-aircraft guns.

Introducing The Office Cut

A notice on the bulletin board from William Allen White introduced Copy, a black tom-cat, to the staff of the Emporia, Kansas, Gazette. "Mice are overrunning the basement. I have, therefore, decided to add to our already extensive equipment one double-cylinder, T-model, repossessed cat. Be good to the cat! Don't let him feed in the melting-pot and don't throw slugs at him for walking on the keyboards of the linotypes. The girls in the front office will feed him."

Judge: "Your wife says you struck her, Uncle Josh. Have you any excuse to offer?"

Uncle Josh: "Ah suitably has, Judge. While Ah was prayin' to rain for mah crops, she was prayin' for fair weather 'cause she was gwine to wash."

On the planet Jupiter, a year has 10,000 days.

Although there are more than 450,000 known species of insects, it is believed that the unknown species comprise an enormous majority.

HIS BACKACHE WAS UNBEARABLE

Kruschen Brought Him Relief From Pain

This man of 31 was prematurely aged by backache, when he should have been enjoying the best years of his life. Here he tells how Kruschen helped to restore him to health, after months of pain.

"I was in hospital for ten weeks, owing to kidney trouble. When I was discharged I felt like an old man, although I am only 31. If I stooped to do anything I was agony to straighten up again. Several people advised me to try Kruschen Salts. I tried them and found they gave me relief from pain and I felt better in every way. I cycle 28 miles a day to and from work, and shall keep up the daily dose of Kruschen because I can now do the things I used to do and not feel any the worse for it."—S.V.C.

When the internal organs cease to do their work properly, impurities begin to accumulate in the system, and cause troublesome symptoms. Kruschen Salts help to stimulate the liver and excretory organs to healthy, regular activity, and thus assist them to rid the system of harmful impurities.

Coronation Medals

Plans For Official And Local Souvenirs Announced In London

The British minister of health, Sir Kingsley Wood, recently despatched an official circular to local authorities informing them of the revised arrangements for the supply of officially approved coronation medals.

The royal mint is to produce an official medal which will show the King's effigy on one side and the Queen's on the other. In addition there will be two classes of medals struck by the trade in this country. The first will be the officially approved medals, which will show the King's effigy on one side and the Queen's on the other. In addition there will be two classes of medals struck by the trade in this country. The first will be the officially approved medals, which will show the King's effigy on one side and the Queen's on the other. In addition there will be two classes of medals struck by the trade in this country.

The second class will have both sides designed by private medalists, but arrangements have been made under which the portraits of a Majesties upon them may be approved by the Honorary British India Medal Committee acting in conjunction with the deputy master of the royal mint and they may then be so described. Supplies of all three classes of medals will, it is anticipated, be available by April at the latest.

SELECTED RECIPES

CALIFORNIA BEES
Temperature 45-55 degrees F.
Time: About 1 hour.

1 cup milk; 1/2 cup sugar; 1 table-spoon shortening; 1 table-spoon salt; 1 cake Royal Household Flour and 1 cup warm water; 1 cup Royal Household Flour; 2 cups Meala Whole Wheat Flour; 1/2 cup candied orange peel, chopped; 1/2 cup walnuts, slightly chopped.

Method: Scald milk; add sugar, shortening and salt; cool. Add yeast cake softened in lukewarm water. Add Royal Household Flour and 1 cup Meala flour; mix thoroughly; continue adding Meala flour until mixture is stiff enough to knead. Turn on floured board and knead until smooth and elastic. Let rise until double in bulk; knead in orange peel and walnuts. Shape into a loaf and put in bread pan or small greased baking powder can. Let rise. Bake in a hot oven for 10 minutes; reduce heat and continue baking. Makes 1 loaf. Entire time for making this bread is approximately 3 1/2 hours.

Recipe by Mildred Mae McKenzie Copyright.

EGGLESS MAYONNAISE

3 tablespoons evaporated milk
2 tablespoons lemon juice or vinegar
1/2 teaspoon mustard
1/2 cup Meala
1/2 teaspoon pepper
1/2 teaspoon paprika
1/2 teaspoon salt
1/2 teaspoon sugar

Combine the dry ingredients, add the milk and gradually beat in the Meala then add the vinegar and beat until smooth. This dressing will keep indefinitely in a cool place.

Printed In Error

Because Jubilee Stamp Was Printed With Wrong Color, Collector Makes Nice Profit

A young stamp collector made a profit of about \$1,500 because three sheets of a 2 1/2¢ King George V. silver jubilee stamp were printed in error in Prussian blue, the wrong shade of blue.

The collector bought one of the stamps in a post office. Not until he had bought the rest of the sheet and two other sheets. Then he approached a syndicate, which bought the stamps at \$5 (\$25) apiece.

The Sahara desert is spreading southward at the rate of a half mile a year.

Skytarks have been introduced in America on several occasions, but each time they soon died out.

Move Alienates Sweden

Hitler's Decision About Nobel Prizes Sweeps Away Good Feeling

Chancellor Adolf Hitler's decision forbidding Germans to accept Nobel prizes in the future created a more unfavorable impression in Sweden than anything that has happened in Germany since the "purge" of June, 1934. By a stroke of the pen Hitler has swept away most of the good-will toward Germany built up by Dr. Joseph Goebbels' propaganda department in the last few years.

The official German explanation is scorned and it is said that the mere fact that the Nazi government has taken this decision shows that it realizes that the prizes still constitute an important link between Germany and the outside world.

Even during the World War the work of the Swedish Nobel Committee, which awards the prizes for physics, chemistry, medicine and literature, was not interrupted, and Swedes remember with pride that they did more than any other people to prevent the world of science being submerged in the hatreds and suspicions of the Great War. Between 1914 and 1918 the physics prize twice was awarded to Germans and twice to Britons and in the same period the chemistry prize was awarded to a German, Briton and American.

Since 1901, when the first prize was awarded, nearly a quarter of all the prizes have gone to Germany.

Build Planes In Canada

Big Boost To Canadian Aircraft Industry Is Anticipated

A big boost in the Canadian aircraft manufacturing industry is anticipated shortly as it is understood that if the Royal Canadian Air Force is authorized to purchase airplanes for the air force, the Government plans to purchase more than 100 airplanes of various types. British designed aircraft will be built under license in Canada.

With British airplane factories working overtime to meet the unprecedented demand for fighting aircraft to place Great Britain on a parity with continental powers, firms in the British Isles are not in a position to accept orders from this side.

A short time ago Australia was compelled to place orders for aircraft in the United States owing to this reason.

The Ideal Man

He does not speak evil of others, even of his enemies, unless it be to themselves. He bears the accidents of life with dignity and grace, making the best of his circumstances. He is a skillful general who marshals his limited forces with all the strategy of war. . . . He is his own best friend, and takes delight in privacy, whereas the man of no virtue or ability is his own worst enemy, and is afraid of solitude.—Aristotle in The Ethics.

London is the world's best-dressed city, says a German expert.

In snake-infested areas, hogs are used to eradicate the reptiles.

Any soil that will produce good garden crops will grow good roses.

TO EASE SORE THROAT PAINS QUICK

1 Crush 3 "Aspirin" tablets in 1/2 glass of water.

2 Gargle twice. This cures sore throat almost instantly.

3 Take 3 "Aspirin" tablets with full glass of water.

As soon as you feel yourself catching cold, follow this modern treatment. Your doctor, we know, will endorse it. This medicinal gargle will provide almost instant relief from rawness and soreness. The "Aspirin" you take internally will act to combat fever, cold pains and the cold itself. "Aspirin" tablets are made in Canada by the Bayer Corporation, Limited, 4 Windsor, Ontario.

Tribute To British Design

Foreign Air Ministers Think 'Planes Best In World'

Foreign air ministers and chiefs of staff are coming to Great Britain to purchase British planes, which are now the best in the world, Viscount Swinton, secretary of state for air, told the Radio Manufacturers' Association. "That is about as good a tribute one can have to British design," Lord Swinton said. "I don't think we need be pessimistic about it."

LEAPS OUT OF BED EACH DAY

Learns how to get primitive health. No more aches! No more sluggish, tired mornings.

Danish penalties of modern living. Get rid of the sluggish, half-risen, headachy morning. Wake up peppy and full of energy. It's easy, you'll think it miraculous! Follow the example of thousands who have regained full health and energy with Fruit-A-Tive. This prescription of a famous Canadian doctor, Fruit-A-Tive contains extracts of fruits and herbs and acts to vital, normal, healthy liver stimulating the flow of bile, helping four other vital organs. . . . Cleanse the circulation tract of waste and poisons. . . . tend to purify the blood of toxins and acids. Fruit-A-Tive is a new, unique, healthy, new energy, new health. So try Fruit-A-Tive. For your own protection refuse substitutes. Insist on "Fruit-A-Tive."

Town & District

Donald McArthur who has been very ill is now much improved.

C. J. Cranfield of Toronto spent Saturday in town visiting his sister-in-law Mrs. W. P. Evans.

Bernard Thorburn has returned from Vancouver. Several weeks ago he had his skull fractured while at work in a logging camp. At the same time he was injured several other men were also badly hurt.

Sometimes we risk our reputation prowling around the back alleys looking for news. We would respectfully ask all people who have an item of news that they would like to see in this sheet to tell us about it. Of course it don't matter whether we are in the back alleys or on the main streets when you are telling us about it as it always looks good to us.

The Meadowbrook Ladies Social Credit Group staged a most successful play and dance last Friday evening. A large crowd attended and many were heard to say the play was splendidly staged and was thoroughly enjoyed.

While at work Friday tearing down the old Bogie implement shed, N. A. Riddell had the misfortune to sprain his ankle badly. He was working on a scaffold some eight or ten feet above the ground when the plank he was on broke throwing him to the ground wrenching his ankle severely. X-rays showed no bones were broken but at the present time the ankle is much swollen and very painful.

Advice has been received from Toronto that Robert and Jean Black were successful in the Grade I Theory Examination for Music by the Toronto Conservatory of Music in Calgary on 13th February, 1937. Both passed with First Class Honors. Robert and Jean received their training from Miss Jean Farquharson, daughter of Dr. and Mrs. Farquharson. Miss Farquharson has a large class of Gleichen pupils this year.

Considerable athletic activity seems to be the order of the day around the school ground. It is not uncommon to see several groups each actively engaged in some line of athletic activity going on at the same time. Several of the really enthusiastic start early in the morning by running a mile or so along the highway east of town, resulting in rather congested traffic for such an early hour. This shows how a little exercise sometimes makes such a difference. Keep it up and the forthcoming athletic meet in Bassano should turn out favorably for the local entrants.

Have you any news to tell the editor or if so he will be glad to publish it. In case you do not happen to meet him on the street use the telephone or the mail. You will be helping make the local paper of greater interest and thereby serve the general community. Whatever news may interest you, must surely interest others.

Some people never hand in an item of news for publication, but if it happens to miss an item in which they are interested they are sure to hand us a north pole star that would freeze the liver of a polar bear.

ST. ANDREW'S CHURCH

Eastar Service will be held in St. Andrew's Church on Sunday March 21st at 11 a.m.

You and your friends are cordially invited to attend.

Rev. C. W. Wiley, M.A. (Incumbent)

WELL PARTIES

An enjoyable farewell party was held at the home of Mrs. V. McMann in honor of Miss Allison Evans. The evening was spent in bridge. Winners of high and low were Miss Maureen Young and Miss P. Birdsen.

Friday evening Mrs. W. P. Pineau held a complimentary party for Miss A. Evans. The guests were entertained at a delightfully arranged bridge. The girls club bridge and a few of their friends being present. During the evening Allison was presented with a handkerchief shower from the guests, and a cosmetic box, the gift of the club, since Allison held the high score for the season. The winners of high and low score for the evening were Miss A. Forgie and Miss L. Phillips.

On Saturday Miss Marie Michael entertained several friends in honor of Allison Evans, at the tea hour. During the afternoon Marie presented Allison on behalf of the girls with a going away gift.

Business in the jewelry trade has increased 17 per cent. Now and then the fellow who always stops to look in the window goes inside.

Can You afford to Use More ELECTRICITY?

If at present you are a user of Electricity you know that you could not afford to be without it. But, if you use it only sparingly, you are not taking full advantage of the services which are available.

Even at the basic rate Electricity is cheap; but once enough energy has been used to satisfy your minimum requirements a FEW ADDITIONAL CENTS will bring you MANY ADDITIONAL HOURS of convenience in the use of an Electric Washer, Vacuum Cleaner or Refrigerator, and of comfort and enjoyment in the use of a good Reading Lamp or the operation of your Radio.

Where can you obtain greater value for so small an added cost as in the full use of your Electric Appliances? What small investment in your home will return you greater, or even equal dividends in comfort and leisure?

The more Electricity you use, the less it costs.

Our local representative will be glad to show you why.

S. WARNE, Local Manager, BASSANO
